6.6 Sign Language Interpreting Program

T. Borgford spoke to the item.

In accordance with Education Council's mandate to formulate advice to the College Board; the Vice President, Academic and Provost seeks Education Council's advice on the educational merits of the proposal to transfer the curriculum and operations of the Diploma in Sign Language Interpretation Program (DPSLI), currently offered in the Faculty of Applied Community Studies (FACS), to Vancouver Community College (VCC). The transfer of the program would include a recommendation to the Douglas College Board to withdraw the DPSLI credential.

T. Borgford provided the rationale regarding the program's suspension of intake for F2023 and the continued struggle with declining enrolments. He spoke about other barriers students have experienced with the way the Diploma is currently structured and is hopeful that VCC could better harmonize the program.

It was noted that VCC is onside with the concept of this transfer and has agreed in principle, to accept a first-year intake into the program for F2023, assuming the program transfer can be completed before Fall registration deadlines. To put these two programs together will benefit students, graduates and the Deaf community.

In answer to a question about whether this would impact the American Sign Language courses housed in Modern Languages, T. Borgford confirmed that those courses will continue to be offered in the Faculty of Language, Literature and Performing Arts.

ACTION:

Please refer this item to your constituency groups for consideration of approval at the March 20, 2023 meeting.

7. FINAL DECISION (Motion to Approve) – Items for Council Approval**7.1 Curriculum Items****a) Curriculum Committee Recommendations**

L. Millis spoke to the Curriculum Committee's submission and review of 13 curriculum guidelines, 13 were approved: 12 revised curriculum guidelines and 1 new curriculum guideline.

Clarification was sought on one of the revised course guidelines noting a change in contact hours. It was confirmed that the contact hours were revised to remove the lab component but that the change reflects 4 hours of lecture.

The President made a general point that historically, and after a very comprehensive process that produced the current timetabling matrix, 3 credit courses may be offered in a 2 x 2 or a 1 x 3 block format. She reminded everyone that the 2 x 2 format provides additional support for students, which was highly valued by the College community when the matrix review was conducted. Both options are expected to be available to provide flexibility in scheduling courses.
