O: Methods of Instruction

An examination of a series of problems in the history of Modern China will give the student ample opportunity to practice and improve these skills. (See objectives.)

Class sessions will be divided between lectures and discussions. The discussion sessions will serve as forum for the exchange of student reactions and criticisms and as a testing ground for student hypotheses. By acting as referee and devil's advocate, the instructor will encourage the student to elaborate, refine, and revise his/her ideas. Participation in class discussions is therefore essential.
